Would any type of payment improve?

- Blockchain vs SWIFT (vs Open Banking)
 - Fees, speed, security
 - Money remitters, global marketplaces, remote work / payroll, B2B
- Micropayments
 - \$0.0001 fees possible, Layer 2s, Lightning Network
 - Gaming, tipping, social media & influencers
- Account Abstraction
 - Visa's testing (DEC 2022)
 - What this has shown and what can come

Ask me anything

- What's the difference: Proof of Stake vs Proof of Work?
- Is Gensler right?
- Could BTC be a global reserve currency?
- What is a smart contract?
- How do NFTs fit into any of this?

Thank you
